

Autonomic is Now Crestron Connected™ and Delivers Full Support to Crestron Touch Screens with High-Resolution Graphics

Autonomic delivers first third party hardware to work with the Crestron Smart Graphics™ media player

Armonk, NY. May 29, 2013—Autonomic, supplying the custom electronics industry with award-winning high performance cloud-based media solutions, has announced that the Mirage Media Server platform is now Crestron Connected™ and fully supports the Crestron media player application. The application is available to all Smart Graphics™ enabled interfaces, including the TSW touch screens with high-resolution graphics and vibrant colors. The integration of this solution provides dealers and programmers native interactivity with Crestron processors and touch screens and a dynamic browsing and playback interface with very little programming. Crestron touch screens deliver the ultimate user experience and the ultimate value by enabling the creation of dynamically rich user interfaces with incredible efficiency and unparalleled functionality. The Crestron media player application provides customers with all of the rich media control they've come to expect from Autonomic, available now on their favorite Crestron touch screen.

Autonomic's Mirage Media Server natively provides customers with complete control of iTunes® content and streaming services, such as Spotify®, Pandora®, Rhapsody®, Last.fm®, TuneIn Radio and SiriusXM® through the Crestron media player application on their Crestron touch screens and iOS devices. And programmers can swiftly integrate fluid gesture-driven controls, animated feedback, metadata, embedded apps, and full-motion video for a deeply engaging and ultra-intuitive touch screen experience.

When combined with a Crestron control system, the Mirage Media Server allows users to control and distribute multiple streams of audio to every room in the house. Additionally, with its integrated Apple® AirPlay® functionality, users can send music from their favorite Apple device to anywhere in the home with the press of a button.
