

**FOR IMMEDIATE RELEASE**

## **Access Networks Adding eero Premium Wi-Fi Systems to their Range of Residential Networking Solutions for Professionals Integrators**

**Encino, CA, August 25<sup>th</sup>, 2016** – Access Networks ([accessca.com](http://accessca.com)), the premier provider of enterprise-grade network solutions for residential integration, is now offering the eero home Wi-Fi system ([eero.com](http://eero.com)) to custom installation professionals. eero enables Access Networks to supply quality networking solutions to satisfy an extensive range of installation sizes and price points while bringing significant value to integrators as recognized experts in this market segment.

eero features a sleek industrial design, wireless mesh capability and an intuitive app that together deliver fast and reliable Wi-Fi for the home—and is more affordable than enterprise-grade solutions. Over-the-air software updates give customers new features, performance improvements, and the latest security. Integrators will appreciate that each eero is elegant, making it easier to visibly place them throughout the home in order to create an optimized mesh network. eero is also highly intelligent, able to automatically determine the fastest path to the Internet for each device. In order to provide integration professionals with expedited service when required, eero has established a channel-specific dedicated support team that will be at the ready to provide assistance as needed.

“Access Networks has the unique capability to be an emissary for eero within the integration channel, offering far more than warehousing logistics to integrators who prefer to work with the most knowledgeable resource in residential networking,” explained Access Networks Founder & CEO Hagai Feiner. “With eero, we see a vital opportunity for integrators to deliver better Wi-Fi to a broad range of clients. All smart home devices require a stable home network, and the eero Wi-Fi system delivers premium performance at an affordable price,” Feiner added.

eero Wi-Fi solutions are available now through [eero.com/pro](http://eero.com/pro) (CEDIA Booth 7408) and Access Networks (CEDIA Booth 5112).
