

Autonomic Announces Flush Mount Kits for KP-6 Keypad Now Available from Wall-Smart

Integrators, designers and homeowners will appreciate décor-friendly flush mounted keypads

Armonk, NY. February 21, 2017 – Autonomic, makers of the finest whole-house music systems and recently acquired by SnapAV, has announced that flush mount kits for the KP-6 keypad (both single and double gang installations) are now available from Wall-Smart. Wall-Smart's concept is to create flush mount kits that achieve the perfectly coordinated blend of electronics and décor demanded by installers, interior designers and their clients. Wall-Smart's flush mounts can be painted to match any wall color scheme. The Wall-Smart solutions for Autonomic were on display at ISE 2017 in Amsterdam.

The elegant KP-6 keypad from Autonomic, available in white or black, provides users with instant access to basic features of their Mirage Audio System whole-house entertainment solution without having to open an app on their phone or tablet. Users of the KP-6 keypad will enjoy fingertip control of power on/off, volume, source and track-skip—as well as four user-programmable preset buttons. Once content has been curated using the Mirage Media Controller app for iOS or Android devices, users can simply press and hold to store that programming as a preset. Presets can be anything, from a Pandora or SiriusXM radio station to a playlist or a favorite album.
