SAVANT® INTRODUCES SKILL FOR AMAZON ALEXA

From single device control to Savant Scenes, users can enable the full power of the Savant control experience via Alexa voice commands

HYANNIS, MASS. — July 10th, 2017 — Savant, a leader in smart home technology, has announced today the release of the Savant smart home skill for Amazon Alexa™. Savant pioneered the use of voice control as part of the connected home by introducing the Savant Pro Remote, enabling homeowners to activate a Savant Scene, choose a favorite channel or select a source within their entertainment system. Now with the unveiling of an Alexa integration, this new functionality represents the next step in voice command and gives users enhanced interaction with their Savant home.

The new Savant skill for Alexa will give consumers the ultimate smart home experience. Setup is intuitive—the user can create a Savant Scene, enable the Savant Skill in the Alexa app, and link their account. and Alexa will discover it as a new Amazon Smart Home Skill that can be easily accessed via voice command. Interfacing with Savant's groundbreaking scene engine that captures personalized automation events, consumers can initiate, schedule, edit or delete a Savant Scene while retaining seamless Alexa functionality. Savant's Amazon Alexa interface is based upon cloud-to-cloud communication between the two services, leveraging the power of Savant's robust, redundant cloud infrastructure.

"Our objective is to deliver the best smart home user experience along with leading edge innovations that bring added value for our network of integrators," stated Savant CEO Robert Madonna. "Adding further voice control options with our Alexa skill accomplishes both without question."

Savant's Amazon Alexa skill is available now.
