

**FOR IMMEDIATE RELEASE**

## **Access Networks Unveils My Access Online Store for Integrators**

***New resource enables integrators to easily purchase custom networks and other new solutions in a highly efficient one stop shop***

**Valencia, CA, May 8<sup>th</sup>, 2018** – Access Networks ([accessca.com](https://www.accessca.com)), the premier provider of enterprise-grade network solutions for residential integration, has announced that their new online store, called My Access, is now live. This full-featured online experience for A/V integrators replaces the legacy Access Networks online store with significantly enhanced features and functionality.

As part of the value proposition with My Access, integrators can purchase all of the latest systems including the Core<sup>2</sup> and Core<sup>3</sup> custom systems, which are now available. Ruckus ICX switches are also available on My Access with a basic pre-configuration, as well as the much anticipated Access Networks Wireless products powered by Ruckus, which are also now shipping. Initially, only company principals and purchasers will be able to login to My Access, however a tiered login structure will be added.

### **Access Networks Wireless**

Access Networks Wireless is a family of best-in-class wireless networking products featuring patented technology designed and manufactured for Access Networks by Ruckus Wireless. The lineup includes a wireless controller, three indoor access points and an outdoor access point all optimized for premium residential applications. Access Networks Wireless components come with four years of support provided by the award-winning engineers at Access Networks, eliminating the need to purchase support separately. Each wireless controller includes eight access point licenses, with additional licenses available one at a time as needed. Access Networks Wireless technology is available now on My Access.

### **Core<sup>2</sup> and Core<sup>3</sup> Custom Systems**

Core<sup>2</sup> and Core<sup>3</sup> are the newest generation of Access Networks' industry-first enterprise-grade network solutions specifically tailored for the automated residence. Access Networks design services are included with the purchase of all Core<sup>2</sup> and Core<sup>3</sup> network solutions, differentiating Access Networks from any other residential solutions provider. Each system, powered by Cisco, Ruckus and Access Networks Wireless, consists of four essential products; a router/firewall, a wireless controller, a primary switch and an Access Networks proprietary monitoring device called a Helix to facilitate proactive service and support of the entire network system. Integrators will appreciate the scalability and flexibility of Core<sup>2</sup> and Core<sup>3</sup> systems as well as the streamlined design, purchase and fulfillment processes all part of the best-in-class products and services from Access Networks. Core<sup>2</sup> and Core<sup>3</sup> systems are available now on My Access.

"It is important to us that we constantly improve the services, products and day-to-day resources that we make available to integrators," stated Access Networks CSO Bryce Nordstrand. "My Access will continue to evolve and has been carefully thought out to support our integration partners with an intuitive user experience for Mac, PC or mobile devices."

### **Current Dealer Registration Procedure for My Access**
