

FOR IMMEDIATE RELEASE

AudioControl Product Data Now Available in D-Tools Cloud

Technology integrators and home theater specialists now have access to detailed product specifications, unique dealer pricing, and other vital information to assist with project management

Seattle, WA, March 28th, 2019 – AudioControl (audiocontrol.com), makers of innovative high-performance audio solutions for the residential, commercial and automotive markets has made key product information easily available to technology integrators and home theater specialists via the D-Tools Cloud that will enhance their operational efficiency.

D-Tools Cloud users now have access AudioControl's detailed product specifications, unique dealer pricing, and other pertinent information to be used as part of the sales, system design, documentation and procurement process at any moment, including the most the critical stage of their projects. "Our objective in making this data easily available in the D-Tools Cloud is to support our dealers by improving project efficiency, enabling them to have fingertip access to our complete lineup and thus win more bids," commented Chris Kane, Vice President of Sales and Marketing for AudioControl.

Building on 20 years of experience in providing tools and resources that help integrators become more successful, D-Tools Cloud intuitively guides users from managing sales prospects, through quoting, system design and procurement. This award-winning SaaS application features sales pipeline and opportunity management, in-app collaboration, workflow management and guidance, ordering, browser-based drawings, critical business analytics and interactive multimedia proposals accessible from any web-enabled Mac, PC or tablet.
