

FOR IMMEDIATE RELEASE

AudioControl Debuts New Savoy G4 and Pantages G4 Home Cinema Amplifiers at CEDIA Expo 2019

New amplifiers offer increased power, the flexibility of channel bridging and a sleek, more compact chassis

Seattle, WA, September 11th, 2019 – AudioControl (audiocontrol.com), makers of innovative high-performance audio solutions for the residential, commercial and automotive markets will be showcasing two new home cinema amplifiers at the 2019 CEDIA Expo. The Savoy G4 (7-channels) and the Pantages G4 (5-channels) deliver the high power that theater enthusiasts demand for a lifelike surround sound experience. Both amplifiers are built on AudioControl's unique Class H topology, which provides authoritative power and unmatched clarity without generating excessive heat. Both new models feature matching cosmetics to the recently unveiled 4/3/2-channel Avalon G4, providing theater designers and A/V integrators with the most advanced amplifier lineup engineered for every system architecture—from a fully immersive Dolby Atmos[®] system to a 5.1 or 7.1 system configuration.

Outstanding New Design

The AudioControl Savoy and Pantages G4 feature balanced and unbalanced inputs along with an audio pass-through and high-quality 5-way binding posts. Each G4 amplifier delivers improved power, performance and functionality verses their G3 predecessors, all from a sleek, more compact chassis. The new G4 models deliver 230 watts at 8 ohms, 300 watts at 4 ohms, 600 watts bridged into 8 ohms. The advanced Class H topology monitors input levels, maximizing power efficiency and reducing operating temperature through the use of multiple voltage rails. AudioControl's Class H amplifiers have become to the go-to choice for many discerning home theater specialists due to their outstanding performance, efficiency and reliability.

Always There for Integrators with the Finest Solutions Available

AudioControl has a 40-plus year history of creating award-winning Made in USA products for integrators and backing them up with superior customer service as well as a 5-year warranty. Engineered and manufactured in the Pacific Northwest, the newest G4 Series amplifiers are yet another example of a best-in-class, innovative product design from AudioControl.
