

FOR IMMEDIATE RELEASE

AudioControl to Exhibit with IMAX® Enhanced at CES 2020

Attendees will see AudioControl's selection of state of the art cinema processors, A/V receivers and high-powered G4 Series amplifiers

Seattle, WA, January 3rd, 2020 – AudioControl (audiocontrol.com) will be showcasing new home cinema products in the IMAX Enhanced Village located in **Booth 10048 at the 2020 CES** in Las Vegas. On display will be new Maestro Series processors, Concert Series A/V receivers and G4 Series amplifiers, creating the most compelling lineup of home cinema solutions sold exclusively through specialists and technology integrators.

IMAX Enhanced

Earlier in 2019, AudioControl joined the [IMAX® Enhanced](#) program, a certification and licensing initiative combining the finest consumer electronics products with IMAX digitally re-mastered 4K HDR content and DTS audio technologies to offer consumers a new level of quality in immersive sight and sound experiences for the home. The IMAX Enhanced firmware resides within all AudioControl processor and receivers. Those settling down to a home movie, with audio powered by an IMAX Enhanced AudioControl AV receiver or preamp/processor, can expect a heart-pounding immersive sonic experience – sound that you can *feel*.

Empowering Cinematic Excitement

In addition to supporting IMAX Enhanced content, AudioControl's new X Series theater platform features 16-channels of output including 4 that are assignable, an intuitive web interface for setup, hi-resolution DAC's, Bluetooth and WiFi streaming capabilities plus Dirac Live calibration. AudioControl offers a superb lineup of 7, 5 and 4/3/2-channel Savoy G4, Pantages G4 and Avalon G4 high-powered amplifiers to create the ultimate home cinema experience. AudioControl G4 Series amplifiers deliver 230 watts at 8 ohms, 300 watts at 4 ohms, 600 watts bridged into 8 ohms. The advanced Class H topology monitors input levels, maximizing power efficiency and reducing operating temperature through the use of multiple voltage rails. AudioControl's Class H amplifiers have become to the go-to choice for many discerning home theater specialists due to their outstanding performance, efficiency and reliability. Each amplifier features balanced and unbalanced inputs along with an audio pass-through and high-quality 5-way binding posts.

AudioControl G4 Series amplifiers are available now. AudioControl's new preamp/processors and A/V receivers begin production in January, 2020.
