AudioControl Introduces High-Performance Compact Amplifiers for Marine and Motorsports Markets

New ACX Series amplifiers offer outstanding power and sound quality plus advanced coatings and sealants to achieve a stellar IP6 water intrusion rating, ideal for marine, ATV, UTV, motorcycles and more

Seattle, WA, January 6th, 2020 – AudioControl (audiocontrol.com) has introduced the ACX series amplifiers, engineered to deliver superb sound quality and durability from a compact chassis to the marine and motorsports applications. AudioControl ACX amplifiers were developed to bring premium sound quality to vehicles that could potentially expose electronics to moisture and other contaminants. ACX amplifiers have achieved an IP6 rating against water intrusion, making AudioControl the clear choice for harsh environment entertainment applications.

“Our 12-volt specialists worldwide have been requesting a best-in-class amplifier durable enough to withstand the challenges of marine and motorsports applications,” explained Chris Bennett, National Sales Manager – Mobile at AudioControl. “The ACX Series addresses these demands while delivering superior sound quality, all from a compact form factor that is easy to install. We are thrilled to exhibit these amplifiers at CES 2020 and deliver to dealers shortly thereafter.”

AudioControl ACX Series Amplifiers

AudioControl ACX Series Amplifiers will make their debut at **CES 2020, Booth 3921**. There will be two models, including a mono (ACX-300.1) that delivers 300 Watts @ 2 Ohms or 175 Watts @ 4 Ohms, and the highly versatile 4/3/2-channel (ACX-300.4) capable of 4x75 Watts @ 2 Ohms or 4x50 Watts @ 4 Ohms and a powerful 2x150 Watts @ 4 Ohms bridged.

Each amplifier has a selectable low/hi input stage with independent gain controls. The ACX-300.1 features AudioControl's patented AccuBASS[®] circuitry along with a low-pass/bypass 12dB/octave Linkwitz-Riley crossover. The ACX-300.4 delivers a hi-pass/bypass Linkwitz-Riley crossover—both models utilize AudioControl's GTO signal sensing circuitry for the utmost in system flexibility and ease of installation. The ACX-300.1 has a MAP price of \$279. The ACX-300.4 has a MAP price of \$329.

Big Performance, Compact Size

The rugged AudioControl ACX amplifiers are loaded with features and deliver superb sound quality for any system design, yet feature an amazingly compact overall footprint to ensure the easiest possible integration into confined spaces. Thanks to state of the art conformal coatings, insulated gaskets and loose-mating waterproof connectors, the AudioControl ACX lineup delivers breathtaking audio performance and superior build quality for marine and motorsports applications.

AudioControl ACX Series amplifiers will become available Q1, 2020
