

FOR IMMEDIATE RELEASE

AudioControl Continues to Support Dealers with Exciting New Products

The AudioControl RS 500 subwoofer amplifier is the latest product manufactured to the highest standards in Seattle, WA and shipping now to dealers worldwide

Seattle, WA, April 30th, 2020 – AudioControl (audiocontrol.com) has been supporting audio/video and home theater specialists as well as technology integrators for well over 40 years, and the design, manufacture and shipping of best-in-class audio solutions continues safely through the current pandemic. Additionally, AudioControl continues to provide award-winning online training and support services to dealers around the world. The RS 500 mono subwoofer amplifier is the latest amazing new product now shipping to dealers.

The Ultimate Subwoofer Amplifier

The AudioControl RS 500 is the ultimate bass amplification solution for any home cinema, multi-zone audio or dedicated music system. The RS 500 delivers 500 watts from a 1U chassis into a 4 or 8-Ohm subwoofer, providing the ultimate bass response from any system thanks to high power and rock solid stability, even into 2 ohms. Like many AudioControl products, the RS 500 accommodates the needs of integrators with IP and IR control as well as loop outputs with an optional high-pass filter along with balanced, unbalanced and speaker level inputs. These features, coupled with the limitless adjustability of AudioControl's multi-award-winning DSP engine that provides graphic and parametric EQs, an electronic crossover along with delay and phase controls are easily accessible for precise calibration and tuning, establish the RS 500 as the definitive choice to power any subwoofer in entertainment systems demanding the very best.

“At AudioControl, we are doing everything possible as a manufacturer and as a longstanding member of the audio/video community to support our important dealer network worldwide,” explained AudioControl CEO Alex Camara. “The RS 500 is quite simply the finest subwoofer amplifier out there, and a product that many have been asking us for. We are steadfast in our commitment to manufacture best-in-class audio solutions from our factory here in the United States, and will continue forward supporting our dealers in every way we can.”

Always There for Integrators with the Finest Solutions Available

AudioControl has a 40-plus year history of creating award-winning Made in USA products for integrators and backing them up with superior customer service as well as a 5-year warranty. Engineered and manufactured in Seattle, WA, the RS 500 amplifier is yet another example of a best-in-class, innovative product design from AudioControl.
