

FOR IMMEDIATE RELEASE

AudioControl Unveils Certified Drivers for Crestron Home Integration

AudioControl's ultimate performance whole-house amplifiers, home theater AVRs and processors now offer seamless integration with Crestron Home

Seattle, WA, July 21, 2021 – AudioControl (audiocontrol.com) has announced the availability of a certified driver that brings Crestron Home integration to their Director D Series and M Series amplifiers as well as their complete lineup of Concert and Maestro Series home theater AVRs and preamp/processors.

The new AudioControl driver for Crestron Home enables integrators to provide clients with seamless control of their entertainment system within the Crestron Home user experience. Homeowners can access key features such as Global On/Off, Volume Up/Down, Tone controls, Matrix switching features, Zone On/Off (in the Director amplifiers) and much more. Integrators will appreciate intuitive and efficient setup of whole-house entertainment and home theater systems within the Crestron Home ecosystem.

AudioControl now offers support drivers for all popular smart home ecosystems including Control4, Crestron, Elan, Josh and Savant.

The new Crestron Home driver for AudioControl Director, Concert and Maestro is now published to the Crestron drivers portal (<http://drivers.crestron.io>) and available within the Crestron Home OS.
