

FOR IMMEDIATE RELEASE

AudioControl Providing Key 12-Volt Training Sessions in English and Español at the 2021 Knowledgefest in Dallas

Multilingual training sessions highlight business growth opportunities as well as in-depth DSP training to achieve best performance

Seattle, WA, August 16th, 2021 – AudioControl (audiocontrol.com) has announced that they will be hosting training seminars in both English and Spanish for attendees at Knowledgefest Dallas, being held at the Dallas Market Center, August 27-29, 2021.

The AudioControl team will be hosting one training seminar per day for English-speaking attendees, covering how to maximize system performance with AudioControl's all-in-one amplifier solutions (Friday), how to make each system shine using DSP (Saturday), and the many benefits of utilizing the AudioControl DM-RTA—the ultimate test tool (Sunday).

On Saturday evening, AudioControl has assembled stars of the Spanish-speaking car audio community to offer “After Hours with AudioControl en Español,” a hands-on training event done exclusively in Spanish. Numerous subjects will be covered, however the primary focus will be on DSP training, demystifying this powerful technology in order to bring best performance to each system.

"These educational tracks are valuable for our dealer partners and enable both sales and installation teams to design and deliver best-performing systems to their customers," stated Chris Bennett, National Sales Director - Mobile at AudioControl. "We are very grateful to draw from our talented and diverse community to offer critical programs in both English and Spanish."

Additional Spanish-speaking presenters will be offering training seminars on a broad range of subjects at Knowledgefest Dallas.
