

FOR IMMEDIATE RELEASE

AudioControl Unveiling New Products Plus Key 12-Volt Training Sessions in English and Spanish at the 2022 Knowledgefest in Las Vegas

Multilingual educational tracks help dealers maximize opportunities using AudioControl's best-in-class mobile audio solutions—including the brand-new Epicenter Micro and ACR-U universal volume control

Seattle, WA, February 14th, 2022 – AudioControl (audiocontrol.com) has announced that they will be hosting training seminars in both English and Spanish for attendees at Knowledgefest Las Vegas, being held at the South Point Convention Center February 18-20, 2022. The prominent AudioControl booth will also feature new products displays as well as two demo vehicles.

Much to See and Hear in Booth 801

Featuring AudioControl's largest exhibition booth ever at Knowledgefest, there will be two cars onsite with demo systems: A BMW 6-Series featuring AudioControl amplifiers, DSP, and the new Epicenter Micro. A Dodge Charger Hellcat will also be on display, showcasing AudioControl signal processing and amplification.

Training Seminars

The AudioControl team will be hosting one training seminar per day for English-speaking attendees, covering how to maximize system performance with AudioControl's all-in-one amplifier solutions (Friday), how to achieve success with any vehicle using OEM interface solutions and how to deliver best sound quality using DSP (Saturday), and the many benefits of utilizing the AudioControl DM-RTA—the ultimate test tool (Sunday).

On Saturday evening, AudioControl has assembled stars of the Spanish-speaking car audio community to offer "After Hours with AudioControl en Español," a hands-on training event done exclusively in Spanish. Numerous subjects will be covered; however, the primary focus will be on DSP training, demystifying this powerful technology to bring best performance to each system.

"With everything we have planned for this Knowledgefest, it is certainly an event you won't want to miss," stated Matthew Palumbo, Mobile Audio Sales Manager at AudioControl. "The educational tracks, newly unveiled products, and demo vehicles create a valuable experience for our dealer partners, enabling both sales and installation teams to design and deliver best-performing systems to their customers. We are very grateful to draw from our talented and diverse community to offer critical programs in both English and Spanish."
