AudioControl Introduces the 3-Zone ACX-BT3 Bluetooth® Controller

Premium Bluetooth interface delivers outstanding sound quality, IPX6-rated durability, and easy access to volume control over three separate zones at the touch of a button

Seattle, WA, July 25th, 2022 – AudioControl (audiocontrol.com) has introduced the ACX-BT3, a premium Bluetooth controller providing independent volume adjustment over three stereo zones or control of all three zones simultaneously. The ACX-BT3 is the ultimate solution for marine, powersports, and other applications where a Bluetooth-connected source is desired.

The high-performance AudioControl ACX-BT3 has been engineered with an IPX6 rating to withstand the rigors of marine and powersports applications. Music enthusiasts will appreciate the superb sound quality of aptX HD, the most advanced 24-bit Bluetooth 5.0 audio codec, plus 4-volts of pristine audio output. With its clean design and elegant appearance, the ACX-BT3 features an AUX input for the integration of a wired audio source. A tap of the center button enables the user to effortlessly select which zone to control, clearly indicated by the color of the LED backlighting. The ACX-BT3 offers an elegant appearance and features integrated mounting holes for easy installation, making it the ideal solution for creating a high-performance, all-weather-rated, standalone sound system where a conventional head unit is impractical.

“The ACX-BT3 is the ultimate solution for integrating a phone as a wireless entertainment source, providing users with a durable volume control option and output to three zones,” said Matthew Palumbo, National Sales Manager at AudioControl. “This is a truly high-performance wireless solution that will help create new opportunities for 12-volt specialists.”

Perfect with AudioControl ACX Series Amplifiers

AudioControl [ACX Series Amplifiers](#) are loaded with features and deliver superb sound quality for any system design, while featuring an amazingly compact overall footprint to ensure the easiest possible integration into confined spaces. Thanks to state-of-the-art conformal coatings, insulated gaskets, and loose-mating waterproof connectors, the AudioControl ACX lineup delivers breathtaking audio performance and superior build quality for marine and motorsports applications.

The AudioControl ACX-BT3 is available now with a MAP price of \$199.99
