

FOR IMMEDIATE RELEASE

AudioControl Debuts New 8K Home Theater Products

AudioControl is celebrating 45 years of serving the CI channel by introducing a complete line of best-in-class 8K home theater products

**SEE ALL THE NEW PRODUCTS BY VISITING AUDIOCONTROL
AT THE 2022 CEDIA EXPO, BOOTH 23068**

Seattle, WA September 29th, 2022 – AudioControl ([audiocontrol.com](https://www.audiocontrol.com)) has announced the introduction of 8K home theater preamp/processors and receivers that will make their debut at the 2022 CEDIA Expo in Dallas. These new ultimate performance cinema solutions are perfect for discerning consumers and represent an important opportunity for specialty dealers and integrators.

8K Home Theater Processors and Receivers for Every Application

AudioControl will introduce new versions of their lineup X-Series immersive processors and receivers that feature HDMI 2.1 with HDCP2.3 support and accept 8K signals. These ultra-premium 16-channel immersive audio preamp/processors and AVRs enable home theater specialists and A/V integrators to create systems that deliver new levels of precision, power, and control. They also support the most sought-after immersive surround formats, such as 9.1.6 Dolby Atmos, Auro 3D, DTS:X and IMAX Enhanced, with 16-channels of balanced and unbalanced output.

AudioControl's newest 8K home theater products offer the very latest in audio and video processing technology, featuring Dirac Live room correction with bass management to overcome acoustic anomalies in any space, ESS Sabre DACs that ensure unprecedented levels of detail and clarity along with earth-shaking, authoritative bass response. Enthusiasts will enjoy easy-to-use app-based control, Google Cast, Airplay 2, aptX Bluetooth and Wi-Fi streaming connectivity options, and integrators will appreciate the highly intuitive web-based configuration along with control drivers for popular smart home platforms. All these features and outstanding technologies have been elegantly wrapped within a beautiful, modern industrial design, distinguishing AudioControl's home cinema preamp/processor lineup from any other solution.

Powered By the Very Best

AudioControl 8K preamp/processors can be combined with AudioControl's newest G4 Series and RS Series amplifiers, including the 7-channel Savoy G4, 5-channel Pantages G4 and highly versatile 4/3/2-channel fully bridgeable Avalon G4 to achieve the finest home cinema experience possible. RS Series mono amplifiers are the ultimate choice to achieve earth-shaking bass from any subwoofer setup.

Always There for Integrators with the Finest Solutions Available

AudioControl has a 45-plus year history of creating award-winning Made in USA products for integrators and backing them up with superior customer service as well as a 5-year warranty. Engineered and manufactured in the Pacific Northwest, these newly unveiled 8K theater

processors, receivers and high-powered amplifiers are prime examples of best-in-class, innovative product designs from AudioControl.

AudioControl 8K home cinema solutions will ship to dealers Q4, 2022.
