

SAVANT Introduces Home Manager Dashboard Providing System Visibility for Homeowners

Savant homeowners can easily view system status, manage user permissions, camera recordings, and more—plus access to subscription status, new software features and upgrade options.

HYANNIS, MASS. September 12th, 2023 — Savant®, a leader in smart home and smart power technology, has introduced the Savant Home Manager, an intuitive smart home management tool created specifically for homeowners. Savant Home Manager is included as part of the company's smart home subscription model and is designed to expand Savant's award-winning user experience beyond traditional mobile apps, in-wall devices, and remote controls.

"Savant Home Manager is the foundation for delivering sophisticated system insights with information that homeowners can act upon," said Angela Larson, GM Professional Solutions. "Savant Home Manager functionality will continue to grow with future enhancements, including network health, system activity log, and more."

Savant Home Manager

Savant Home Manager is the first web UI smart home dashboard designed for Savant homeowners. Users with administrative level permissions can access key system information, manage user permissions, filter and view camera recordings, view active cloud integrations, access product tutorials and review frequently asked questions. Savant Home Manager is the perfect tool for the new Savant system owner to easily learn more about basic system features, and for the power user to dig deeply into system statistics, upgrade possibilities, and more.

Homeowners can access Savant Home Manager by visiting savant.com and simply logging into their system, using the same credentials for their Savant app experience. Savant Home Manager highlights include:

- **Camera Recordings.** The Camera Recordings view allows homeowners to easily access and organize camera recordings with sort features by camera, date/time, and even specific event types.
- **Connected Apps.** Homeowners can view and manage connected third party apps that have access to their Savant home, including voice, security, and more.
- **User Management.** The User Management view allows a system administrator to manage dealer system access permissions as well as add, delete, and edit user permissions.
- **Tutorials.** Homeowners can find quick Tutorials on how to navigate the Savant app, personalize their system with scenes and room photos, and more.

Savant Home Manager is available now.
