SIoux FALLS, S.D., April 30<sup>th</sup>, 2024 – AVPro Edge ([avproedge.com](http://avproedge.com)) has introduced the AC-EXUSB-3-KIT that accommodates up to four USB devices via USB 3.2 Gen 1 Type-A female ports, using proven stable technology to transport any combination of up to four USB 3.2 Gen 1, 2.0, 1.0 signals across distances as great as 100-meters (328 feet) over CAT-6A cabling.

“With our proven expertise at flawlessly extending 8K HDMI signals an industry-best nearly 1,000 feet, AVPro engineers have now successfully created a valuable tool for our integration partners that provides an identical solution for extending high-performance USB connectivity,” explained Matt Murray, CTO at AVPro Edge. “USB signals present unique challenges, with USB 3.X limited by passive cabling to a mere nine feet. But our video heritage and engineering acumen have come to the rescue when such a limitation simply won’t do.”

The AC-EXUSB-3-KIT is a two-piece solution, with the device-end conveniently functioning as a hub for as many as four USB peripherals. Mixed USB signal standards may be used simultaneously, and all USB ports on both the Host and the Device are robust USB 3.2 Gen 1 Type. Integrators will appreciate the kit’s compact form factor, which makes for easy placement possibilities.

### KEY BENEFITS: AVPro Edge 100 METER USB 3.0 EXTENSION KIT

- Transport USB 3.2 Gen 1 signals up to 100 Meters from host/computer
- Supports 4K cameras, microphones, plus legacy USB 2.0 and 1.0 devices
- 5 Gbps total bandwidth for four devices
- Send USB 3.2 Gen 1/2.0/1.0 signals simultaneously
- Dual-chassis compact form factor system
- Works seamlessly with codecs and conference room systems

AVPro Edge products feature superior design and manufacturing and are backed by a 10-year advanced-replacement warranty, providing integrators with peace of mind knowing they have installed a product built to last from a trusted manufacturer committed to the Pro A/V channel.
