

SAVANT Partners with Monogram Appliances to Deliver Smart Appliance Opportunities to the CI Channel

- *Savant's introduction of a 30-inch smart hearth oven available to purchase from the Savant Store, delivers unprecedented performance and smart features.*
- *New smart appliances widgets in the Savant app deliver direct control and smart appliance visibility from a single app.*

HYANNIS, MASS. September 10th, 2024 — Savant®, a leader in smart home and smart power technology, is committed to bringing new opportunities to technology integrators, with a focus on the luxury smart appliance category. End users will appreciate the intuitive appliance technology integration into the Savant app.

Introducing the Savant Smart Hearth Oven

Savant has partnered with Monogram Appliances to develop the Savant Smart Hearth Oven, a handcrafted precision appliance that combines high-heat capability, preset cooking options for a variety of foods such as perfectly crisped pizza, and integration with Savant's award-winning smart home ecosystem.

The 30-inch Savant Smart Hearth Oven is a ventless, all-electric design that fits flush in a standard opening, delivering brick oven performance worthy of culinary masters. The oven is meticulously handcrafted utilizing premium materials such as a brushed stainless-steel exterior and intuitive touch controls. The innovative design requires no additional ductwork thanks to an integrated ventilation system with active smoke filtering and is therefore easy to install in any home. Smart functionality, controlled natively from within the Savant app, includes temperature settings, reminders, cooking modes, and power OFF. The Savant Smart Oven is now available for Savant Integrators to purchase from the Savant Store.

Luxury Appliance Opportunities from Savant

Savant and the team from Monogram Appliances have designed a luxury appliance referral program, delivering technology integrators the tools to showcase and recommend Monogram-branded appliances to their clients. Savant integrators will not only benefit from added smart technology on each project, but they can also provide their clients with luxury appliance integration, education, and hands-on demonstration with an all-new appliance showroom program.

In addition to the Savant Smart Hearth Oven, integrators can also offer clients the Monogram Forge, a unique ice press, the first of its kind available in the USA. The Monogram Forge rapidly transforms your ice into perfectly round ice spheres, ideally suited to chill the world's finest spirits without diluting flavor. The Monogram Forge is now available for Savant Integrators to purchase from the Savant Store.

Smart Appliance Technology in the Savant app

As smart appliance technology continues to evolve and play a key role in the overall smart home, consumers will benefit from control and automation features driven from inside the Savant app. This includes supporting the new Savant Smart Hearth Oven as well as the overall electrification of appliances, with key energy management features for major energy consumers such as smart water heaters.

The all-new Savant water heater service will enable homeowners to manage water heater energy consumption, allowing the heaters to store thermal energy in the tank when electricity costs are low,

and consume it when costs are high. The service will also include a vacation mode, notifications, and temperature management.
