

RTI Showcases Intelligent Surfaces™ Remotes at the 2025 CEDIA Expo

Now Shipping, these Best-In-Class Remotes Deliver First-In-Class Features and Outstanding Ergonomics, Creating the Ultimate Control Solution for Residential Integrators.

PLEASE VISIT RTI WITH AVPRO AT THE 2025 CEDIA EXPO SEPT 4-6 BOOTH 1501

SIOUX FALLS, S.D., August 7th, 2025 – RTI, the leading brand of control and automation solutions, is highlighting the Intelligent Surfaces Remotes at the 2025 CEDIA Expo September 4-6 in Denver, CO in the AVPro Global booth 1501. A seamless blend of art and engineering, the ISR-4 and ISR-2 are now shipping to integrators worldwide.

"These new remotes represent a perfect fusion of art and engineering," said RTI President Joe Roberts. "Both remotes deliver unmatched entertainment and control convenience with stunning ergonomics, the personalization that integrators expect from RTI, and advanced Wi-Fi for instant performance. This is our most impressive line of remotes yet and we are excited to share these new products with attendees at the 2025 CEDIA Expo."

The ISR-4 features a brilliant 4-inch high-definition touchscreen that delivers a smartphone-like experience with ample space for cover art, camera feeds, and lighting controls. Customizable soft keys enable scene selection while soft-touch backlit buttons and an intuitive 5-way thumbpad ensure effortless operation.

The ISR-2 balances a vibrant 2.8-inch touchscreen with a numeric keypad for seamless media system control. The ISR-4 and ISR-2 each feature real-time haptic feedback for precise, tactile responsiveness.

Both remotes incorporate advanced Wi-Fi technology for reliable connectivity, built-in accelerometers for instant activation when picked up, and ambient light sensors that automatically adjust display brightness. Smart power management delivers 4-5 days battery life for the ISR-4 and 6-7 days for the ISR-2.

The optional Advanced Base (coming soon) combines charging with a dedicated Wi-Fi hotspot, three programmable scene buttons, and the highly requested Find-My-Remote feature.

Since 1992, RTI has been at the forefront of innovation in control and automation, transforming spaces into intelligent environments that enhance lifestyle and streamline operations. The comprehensive suite of products and award-winning support services empower integrators to craft personalized and intuitive control experiences optimized for every project.
