

## GE Proseo Undercabinet Fixtures Debut at the 2025 CEDIA Expo

*The all-new family of GE Proseo Undercabinet Fixtures are a best-in-class, specification-grade, smart undercabinet lighting solution engineered for the custom integration channel.*

**PLEASE VISIT SAVANT AT THE 2025 CEDIA EXPO SEPT 4-6 IN DENVER, BOOTH 2519**

**HYANNIS, MASS. August 28<sup>th</sup>, 2025** — Savant®, a leader in smart home and smart power technology, has announced the introduction of GE Proseo Undercabinet Fixtures, a specification-grade lighting solution engineered to deliver evenly distributed light onto the surface of the countertop while working seamlessly within Savant’s smart home ecosystem. GE Proseo Undercabinet Fixtures will be available September, 2025.

“GE Proseo Undercabinet Fixtures deliver beautifully layered lighting where it is needed most; to evenly illuminate a counter surface,” explained Greg Barrett, Director of Product Management, Professional Lighting. “Dedicated undercabinet fixtures differentiate themselves by creating wide, even, uniform distribution verses linear tape, which can be an inferior alternative for the application.”

### Refined Optics and Much More

GE Proseo Undercabinet Fixtures feature a slim, edge-lit profile and glare-reducing prismatic optics that evenly distribute light on the surface of any countertop without the glare or hot spots typical of most undercabinet or linear tape lighting. The beautifully diffused pools of dimmable, tunable white light and RGB colors elevate any space, and for every occasion, with functionality and style. GE Proseo Undercabinet Fixtures are available in white or black finishes to blend with any decor, and the fixtures are available in three sizes: 12-inch, 18-inch and 24-inch lengths for a perfect fit across any kitchen or bar space. GE Proseo Undercabinet Fixtures install in minutes using captive screws—no disassembly is required, and installation is quick and intuitive.

### This Undercabinet Fixture is Smart

As part of Savant’s smart home ecosystem, setup, and control of the undercabinet fixtures is effortless, and they can be included in Savant Scenes, providing ideal lighting across an entire space with the touch of a button. These tunable fixtures are also compatible with Savant’s award-winning Daylight Mode feature, automatically tuning the color temperature and brightness in accordance with circadian rhythm. Users can also control the undercabinet fixtures with physical buttons on the fixture itself, making them simple to use.
