

SAVANT Announces Integration with Schlage® WiFi Smart Locks

Savant Now Offers Seamless Compatibility with Schlage's Encode™ Family of Smart Locks, Offering Features such as Lock/Unlock, Camera Feeds, Notifications, and More.

HYANNIS, MASS. April 23rd, 2026 — Savant®, a leader in smart home and smart power technology, announced an integration with the Schlage Encode™ Family of Smart WiFi Deadbolts. Savant users can monitor alerts, effortlessly send lock/unlock commands from the main screen, and add camera feeds or personalized lock/unlock notifications, creating a seamless, secure, and convenient smart home experience. Schlage Encode locks are also compatible with voice commands and Savant Scenes as part of the new integration.

“Schlage Encode smart locks are a popular and secure solution for integrators and builders, and this integration creates an expanded opportunity for them to deliver convenience and enhanced security as part of their Savant smart home experience,” explained Kara Perdue, Executive Vice President of Product Management at Savant. “Homeowners will enjoy the added confidence of being able to easily monitor and control their Schlage smart locks from within the award-winning Savant app they use every day.”

With the demand for enhanced smart home experiences in new homes skyrocketing, home builders will appreciate the onboard compatibility between Savant's award-winning smart home software and Schlage Encode smart locks. This solution, from two leaders in their respective industries, creates value-add options that elevate home security and convenience.

Savant Door Lock Service

The Savant Door Lock Service within the Savant App enables users to Lock/Unlock doors and view status of any connected door lock. Users can also configure push notifications when a door locks or unlocks. Savant integrators can add a camera feed for each door lock, enabling homeowners to view the doorway and surrounding area. The door locking feature can be activated as part of a Savant Scene.
