

FOR IMMEDIATE RELEASE

## **AVPro Brands Debut Newest Innovations and Integrator Solutions at the 2026 InfoComm in Las Vegas**

*AVPro's family of brands—including AVPro Edge, AudioControl Pro, RTI, Murideo, and Bullet Train—will highlight their latest innovations and integrator-focused solutions at InfoComm 2026 in Las Vegas.*

**Please Visit All AVPro Brands at the 2026 InfoComm Las Vegas: June 17-19 Located in Central Hall — Booth C7028**

**SIoux FALLS, S.D., June 10<sup>th</sup>, 2026/** News Release/ AVPro Global Holdings LLC, parent company of AVPro Edge, AudioControl Pro, Bullet Train, RTI, ProControl, ThenAudio, and Murideo, will unveil an immersive new booth experience at InfoComm 2026, taking place June 17–19 in Las Vegas, Nevada. Through a series of interactive demonstrations, attendees will experience a powerful ecosystem of connected solutions featuring MXnet AV-over-IP technology and RTI control platforms, engineered to help technology integrators deliver exceptional outcomes across commercial environments such as education, hospitality, corporate environments, and more.

“InfoComm provides an outstanding opportunity to demonstrate the innovation and integration capabilities that define our brands,” said Matt Murray, CEO of AVPro. “We are excited to display our newest solutions, designed specifically to help technology integrators solve real-world challenges across a wide range of applications. Our commitment to delivering innovative products, exceptional quality, and award-winning customer support continues to drive our mission of being the industry’s premier provider of AV signal distribution, control, and audio solutions.”

### **AVPro and SAVe**

AVPro is proud to support a sustainable future for the AV industry by donating \$1 to SAVe for every badge scan at our 2026 InfoComm booth (C7028), and additional \$1 for every visitor who trades in an AVPro promo item for an extra donation. SAVe (Sustainability in AV) is a nonprofit organization dedicated to driving environmental responsibility and sustainability within the audiovisual (AV) industry. It works with manufacturers, integrators, and end users to develop and promote practices that reduce the AV sector’s carbon footprint and support circular economy principles. AVIXA has collaborated with SAVe on sustainability-related programming and discussions, including sessions at major industry events. Learn more about SAVe at [saveav.org](https://saveav.org).

### **InfoComm attendees to AVPro Booth C7028 will experience:**

- Live hospitality-themed installations including a sports bar powered by MXnet AV-over-IP.
- A hotel lobby featuring traditional HDMI distribution demonstrating how AVPro's products work together across video distribution, control, audio, and connectivity.
- The AVPro Edge MXnet USP Series is the next generation AV over IP ecosystem designed to create hybrid AV systems. USP is built on AVPro Flow technology, aimed to provide native interoperability with conferencing platforms, camera systems,

recording/streaming solutions, and production equipment, creating a unified platform for modern deployments.

- RTI's exciting upcoming new processors and unique expansion modules together with new developments and features for Integration Designer software.
- The newest ConferX matrix switcher from AVPro Edge delivers features designed for commercial integrators. Instantly switch between HDBaseT and HDMI sources with side-by-side display and scaling options built for commercial applications. Features include HDBaseT inputs compatible with the latest ConferX HDMI/USB wall plates, RS-232 control, HDMI stream control, 5-volt toggle for CODEC disconnection, and aspect ratio conversion for ultra-wide displays.
- The AVPro Edge extender lineup is evolving with the new XSC line of products. This new line focuses on performance and affordability, delivering signals up to 100 meters (328 feet) at fraction of the cost. With options for 18 Gbps and USB Type-C display port alt mode, the XSC line is the perfect option for extension in residential and commercial applications alike.
