Missoula, Montana — June 11th, 2026 — The Cleerline Technology Group, market leaders in fiber optic connectivity for commercial and residential technology applications, has announced the appointment of Quartz AVA as the distributor for their best-in-class fiber optic solutions across the Benelux region (Belgium, Netherlands, and Luxembourg).

For over 30 years, Quartz AVA has been a leading value-added distributor of premium audio/visual and custom integration technologies. Based in the Netherlands and serving a network of top-tier dealers, integrators, and home cinema specialists, Quartz AVA provides comprehensive technical support, training, logistics, and project guidance across the region. The goal is simple: to provide discerning end users with the ultimate audio and video experiences, discreetly integrated, uncompromising in quality, and fully tailored to their individual needs. quartz-ava.nl

“Cleerline Fiber is a natural extension of our portfolio,” explained Bas van Oosten, Director of Quartz AVA. “We are seeing a growing demand for fiber-based solutions, and our goal is to equip our dealers with a more complete, future-ready offering in the fiber category, enabling them to deliver the next generation of AV experiences to customers. Fiber is not the future—it has already become the new standard, and we want to be ahead of that shift.”

About Cleerline Technology Group

Based in Montana with offices throughout the United States, Cleerline manufactures single-mode and multimode fiber optic cables designed to outperform traditional fiber. With our patented SSF™ and BendSafe® technologies, our products deliver superior strength, flexibility, and reliability—bending tighter, handling easier and lasting longer in extreme applications, harsh environments, and dense cable paths. Unlike traditional fiber that can be fragile and prone to break under stress, our patented process reinforces the glass itself to provide industry-leading bend tolerance and durability, establishing a benchmark for professional installers seeking to deliver best performance to their clients. cleerline.com
