AVPro Edge Updates the MXnet Switch Lineup

With the P-Series, AVPro Edge Refreshes Its Best-Selling MXnet 1G Switches with Pre-Configured AV-over-IP Switching Built for Scale.

SIoux FALLS, S.D., July 9th, 2026 – AVPro Edge (www.avproedge.com) has refreshed its best-selling MXnet 1G switches with the introduction of the MXnet P-Series. The P-Series is an evolution of the existing MXnet 1G switch lineup, purpose-built for large-scale MXnet 1G systems, delivering high-density PoE, scalable stacking, and zero licensing costs in a space-efficient 1RU rackmount form factor. As successors to the SW24 and SW48, the new P-Series switches bring the same proven stacking and uplinking capabilities integrators rely on, now with significantly more uplink bandwidth and at a better value. P-Series switches are ideal for large residential, hospitality, and commercial installations, making them the go-to choice for integrators deploying high-fidelity AV-over-IP MXnet 1G systems. AVPro Edge MXnet P-Series switches are available in 24-port and 48-port configurations and come with a 10-year warranty.

“The preconfigured MXnet P-Series switches eliminate the need for complex manual configuration, saving integrators time while ensuring predictable multicast performance and smooth video switching from day one of deployment in any MXnet system,” explained Matt Murray, CEO at AVPro Global. “The new SW48P jumps from four 10G uplink ports to six 25G SFP28 ports, giving integrators managing larger deployments a major step up in bandwidth headroom while remaining plug-and-play out of the box.”

AVPro Edge MXnet Preconfigured 48-Port P-Series Network Switch

- 48× 10/100/1000Base-T PoE/PoE+ copper ports
- 6× 25G SFP28 uplink/stacking ports
- Preconfigured for MXnet 1G V1/V2
- IGMP Snooping, VLANs, and QoS support
- Non-blocking for 1G (150G uplinks > 40.8G max 1G load)
- 396 Gbps switching capacity
- 740W PoE budget (ports 41–48 support PoE++ at 90W)
- 1RU rackmount form factor
- Max 4 switch hops

AVPro Edge MXnet Preconfigured 24-Port P-Series Network Switch

- 24× 10/100/1000Base-T PoE/PoE+ copper ports
- 4× 10G SFP+ uplink/stacking ports
- Preconfigured for MXnet 1G V1/V2
- IGMP Snooping, VLANs, and QoS support
- Non-blocking for 1G (40G uplinks > 20.4G max 1G load)
- 128 Gbps switching capacity
- 370W PoE budget
- 1RU rackmount form factor
- Max 4 switch hops

AVPro Edge E-Series Network Switches

The MXnet E-Series switches bring cost-effective, pre-configured AV-over-IP switching purpose-built for MXnet USP systems. Available in 24-port and 48-port configurations, these switches come ready to deploy out of the box with no complex network setup required. E-Series switches can also be used as the backbone for Dante or AESA67 networked audio systems while also providing support for single-switch MXnet 1G systems. Whether it's hospitality, education, healthcare, or government, E-Series switches deliver the performance and scalability

integrators need at a price point that makes professional AV networking accessible for more MXnet USP projects.

AVPro Edge products feature superior design and manufacturing and are backed by a 10-year advanced replacement warranty, providing integrators with peace of mind knowing they have installed a product built to last from a trusted manufacturer committed to the Pro A/V channel. About AVPro Edge

Headquartered in Sioux Falls, South Dakota, and a subsidiary of AVPro Global Holdings, AVPro Edge develops and manufactures high-performance connectivity products engineered to provide professional audio/video installers with the performance and functionality they must have to deliver best solutions to clients. As a full adopter of HDMI®, Dolby, HDBaseT, SDVoE, and HDCP, AVPro Edge engineers work closely with these organizations and chip manufacturers to ensure the very best products come to market on behalf of our customers worldwide.

About AVPro Global Holdings, LLC

AVPro Global is a privately held American company headquartered in Sioux Falls, SD, with satellite offices in St. Petersburg, FL, Minneapolis, MN, a European office in Bratislava, Slovakia, and an office in Shenzhen, China. Recognized as one of the 2025 Inc. 5000 Fastest-Growing Private Companies in America, AVPro Global's audio/video-centric brands include AVPro Edge, AudioControl Pro, Bullet Train, Murideo, RTI, and Thenaudio – combine their respective strengths to perfectly complement AVPro Global Founder and Chairman Jeff Murray's vision, "To be recognized as the best residential and commercial AV signal distribution and control products and services company on the planet." avproglobal.com
